

**500 MG of
PURE POWER!**

The KING of Prostate Supplements

A bold claim.
An even bolder formula.
Find out why P500X
reigns supreme.

DR. JEFFREY
GREIFF, M.D.

“P500X stands in a class of its own.”

It doesn't just offer more than other prostate supplements; it finally solves the puzzle of giving all men the exact support they've been looking for.”

— Dr. Jeffrey Greiff, M.D.

This is the one.
You won't believe
you ever went
without P500X:

- **Total Support** for prostate, urinary, and sexual health to help you feel like the man you want to be.
- **Spend Less Time in the Bathroom**, have a better time in the bedroom, and live life on *your* terms instead of your prostate's.

- **Get an Extra Secret Weapon** to promote robust sexual wellness.

Let's be honest. Prostate supplements have gotten boring.

P500X is here to change that. This is prostate support worth truly getting excited about because it's prostate

support that truly delivers, and what sets it apart is beautifully simple:

P500X gives you the most of the best natural ingredient for promoting strong prostate health.

Graminex® G63® is the only flower pollen extract that gives you a full spectrum of prostate nourishing nutrients without the use of solvents, and P500X is the only prostate supplement that packs this kind of punch.

Every serving of P500X is packed with **an industry-leading 500 mg** of this unparalleled ingredient, and I can't wait to tell you more about it in the coming pages. Just know you'll never have to choose between quality and quantity again, because you'll be getting the best of both!

But why leave it at that?

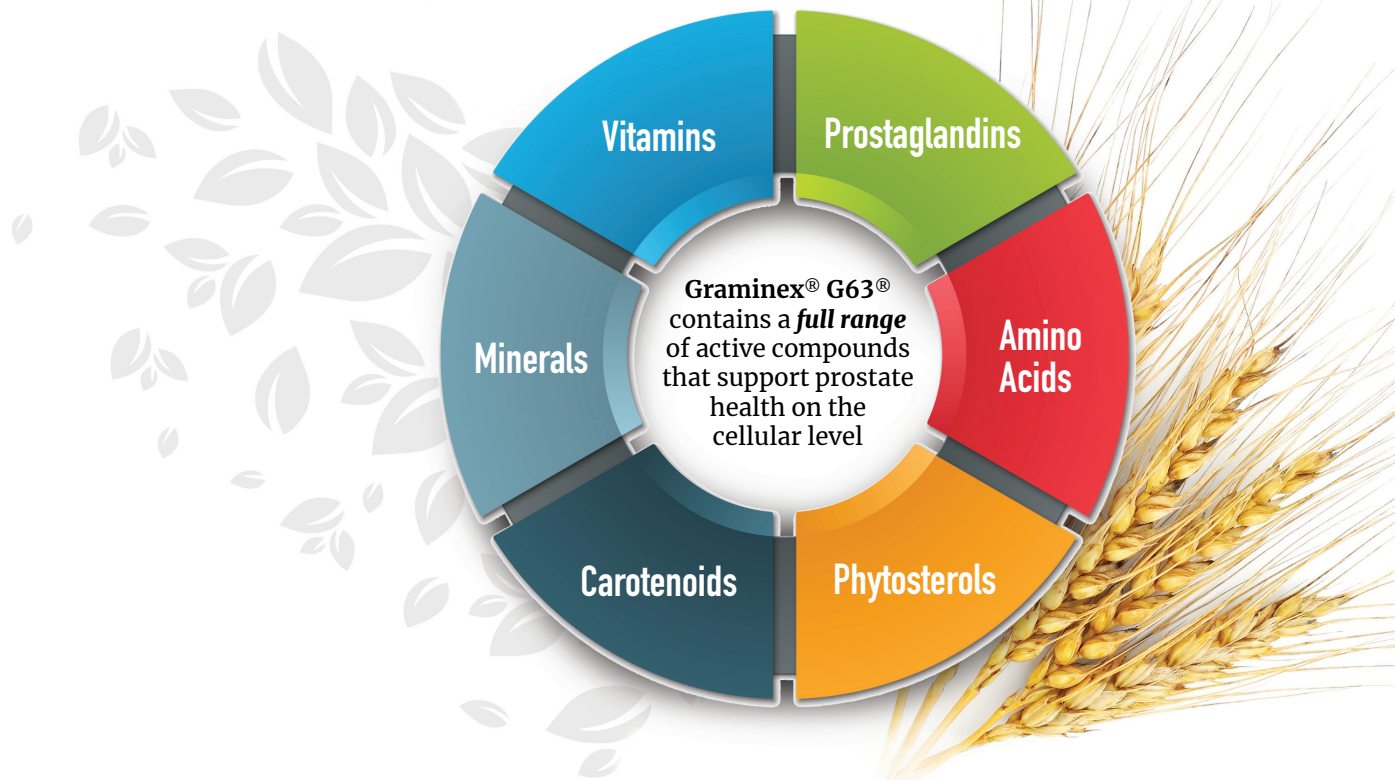

(continues)

To really address every aspect of a healthy prostate, P500X also gives you two more of the most popular ingredients on the market to save you the trouble of ever having to bounce between products again. Plus, there's an extra secret weapon formula to promote robust sexual wellness and help you enjoy the bedroom again.

So, what does this all mean?

Think of it this way. **Each milligram of prostate support in P500X is more than the number on the label.** It's another way of saying you'll be spending less time in the restroom, more time in the bedroom, and **living life on your own terms instead of your prostate's.** You don't have to list 500 reasons why you want to enjoy your prostate health. Just know they're all covered.

The Prostate Nutrients Packed in Every Grain

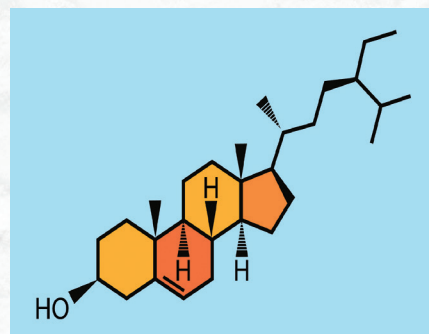

P500X is like a “Greatest Hits” of Powerful Prostate Support — and the Results Will be Music to Your Ears:

1 Graminex® G63® Flower Pollen Extract comes from humble roots as American-grown ryegrass to become a cutting edge prostate powerhouse rich in cell-repairing compounds.

2 Saw Palmetto can put you alongside the estimated 2 million men across the country who use it to support stronger prostate health, more comfortable urinary wellness, and robust testosterone levels.

3 Beta Sitosterol unlocks some of nature's best wellness-boosting properties, promoting healthy prostate function while also possessing the extra benefit of supporting heart health.

4 Maca Root has evolved from a favorite of Incan warriors to a botanical prized by nutritional science for its ability to support sexual wellness, promote healthy erectile function and boost stamina.

An American Innovation: How Graminex® G63® Takes Prostate Support to a Whole New Level

It's appropriate that "America the Beautiful" mentions "amber waves of grain". Right up there with baseball and apple pie, the Graminex® company's family-owned rye farm in Ohio has been an American staple, albeit in natural wellness, for over 20 years. The story of how this American grown ryegrass becomes the world's only non-solvent extracted, high-quality flower pollen is a perfect insight into why the 500mg in every serving of P500X is the cleanest, purest prostate support you can ask for. And of course, the study results simply speak for themselves.

The Ultimate Process...

1. It All Starts In The Heartland

Not all rye is created equal, and this isn't the same as what you find in your bread. The life of Graminex® G63® Flower Pollen Extract begins as certified seeds grown in ideal conditions right in Northwest Ohio. No pesticides, no herbicides, just perfect prostate support awaiting its destiny.

2. Getting The Right Results Requires The Right Conditions

Once spring rolls around, the rye is ready to be harvested at precisely the optimal time. Quality experts check the crop daily to find out when the rye has reached its peak nutritional content, at which point it gets to enjoy some time "chilling out" in temperature controlled storage to maintain perfect stability, potency, and efficacy.

3. There's Only One Extraction Process That's *This* Clean, Pure, and Potent

All the high quality rye in the world wouldn't be of much use if we couldn't unlock the prostate nourishing nutrients inside! Other manufacturers use chemical solvents in this process, but Graminex® G63® stands alone as the only *non-solvent* flower pollen extract that harnesses rye's full range of active ingredients using only natural CO2 and purified water.

Graminex® G63® doesn't just make you feel better. It's an ingredient you can feel better about.

Turn page for study results...

The Ultimate Results...

It's one thing to know that you're getting a full 500 mg of an ingredient that's made to the highest standards of purity, quality, and care. It's another to know what it's capable of, according to real world research studies:

STUDY 1

9 Out of 10 Men Reported Improvements¹

This first study takes us all the way to Japan, where researchers gave participants experiencing prostate-related urinary and sexual difficulties 375mg of Graminex® G63® per day for up to 3 months. Using a scale called the International Prostate Symptom Score (IPSS), they were able to track the men's self-reported progress on things like erectile and urinary function.

The results were nothing short of impressive! **90% of men saw an improvement in their score**, and that's with 125mg less Graminex® G63® than each serving of P500X contains.

STUDY 2

Nearly 2,000 Men Enjoyed Major Support²

For an entire year, 208 doctors tracked the progress of 1,894 men who were given Rye Flower Pollen Extract for their prostate health. They focused on markers such as nighttime and daytime urination frequency, urgency, flow, and whether or not the men felt like they had fully emptied their bladder.

After that year was up, the data spoke for itself. Not only was the rye well-tolerated by 99% of participants, **it made a measurable difference in promoting strong prostate and urinary health in over 90% of the men studied!**

STUDY 3

Incredible Conclusions From A Comprehensive Review³

Lastly, we have something a little different. I love reviews like this one, because they're able to distill the results from a wide range of studies on a topic like Rye Flower Pollen Extract into a single conclusion that's easy to understand. In this case, data was gathered from 13 double blind and open label studies examining rye's ability to support strong prostate and urinary health.

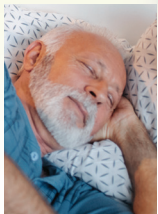

Dr. William Chambliss, the University of Mississippi pharmaceuticals professor who conducted this meta-analysis, had a very positive conclusion to make based on the extensive findings he examined. After remarking on rye's continued record of success in supporting better prostate and urinary health, he notes its power at **"improving quality of life"**!

500 Reasons To Support A Healthy Prostate With P500X

Sure, 500, sounds like a lot. But, if you asked 500 different men what better prostate support could do to help *them* live more freely and confidently, we bet you would get 500 different answers. What will yours be?

Sleeping restfully through the night with fewer late-night sojourns to the bathroom. Who knew that another benefit of better prostate health is a lower incidence of tripping over slippers?

Relaxing more and worrying less. Imagine how much better a day spent with friends and family, on the golf course, or just hanging out at home could be when you're not stressing over the nearest restroom.

Feeling like your old self in the bedroom. It's not unusual for men to lose some of their sexual fire as they age, but why not get that spark back? With a boost in desire, performance, and stamina, you can enjoy your sex life like you used to.

Whether you can only list 5 reasons of your own or have a full 500 ready to rattle off (we'd be impressed!), you always have your options open when you choose P500X as your prostate supplement.

P500X is prostate support worth truly getting excited about **because it's prostate support that truly delivers!**

Good Things Come In Threes:

The Trio That Solidifies P500X As The Last Prostate Supplement You'll Ever Need

Even the greatest athletes of all time needed a strong team around them. **Graminex® G63®** might be playing quarterback in this powerful formula, but it's the addition of three of the most potent, trusted prostate support ingredients available that make **P500X** a true champion.

① Saw Palmetto

What It Is: Saw Palmetto is something of a celebrity in the world of natural prostate health, with an estimated 2 million men across the U.S. using it. If you were to come across one of its small, shrublike plants in the wild, you might not think much of it; but, it's **the bright red berries it produces that pack major benefits for supporting a healthy prostate.**

Why It Works: The natural compounds in **Saw Palmetto help to slow the breakdown of testosterone into a different hormone called DHT, which plays a role in causing the urinary and sexual issues linked to your prostate.**

② Beta-Sitosterol

What It Is: Even though it has a fancy sounding name, beta-sitosterol is a powerful natural compound that comes right from plants! It's a type of *phytosterol* - a family of molecules that resemble the structure of cholesterol. The major difference is that **beta-sitosterol actually competes with "bad" cholesterol in the body, which gives it the added bonus of supporting healthy cholesterol levels!**⁴

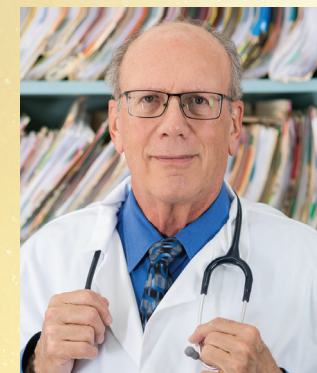

Why It Works: Beta-Sitosterol's unique chemical structure allows it to promote stronger prostate function on the cellular level. A review of 4 placebo-controlled, double-blind trials concluded that **beta-sitosterol proved successful at improving urinary wellness and flow measures!**⁵

③ Maca Root

What It Is: Of these three amazing ingredients, Maca may well be the most fascinating. Imagine yourself high up in the Andes Mountains; that's where the ancient Incans harvested this **potent botanical to boost stamina and virility** over 2,000 years ago. It remains **a favorite for sexual health to this day**, and is rich in Vitamins B & C, iron, potassium, calcium, and manganese.

Why It Works: Research points to the fact that Maca Root appears to have the perfect makeup for helping men with their sex lives. A clinical study observed **Maca's effects on sexual desire over the course of 12 weeks, and concluded that it did improve sexual desire after only 8 weeks.**⁶

Are you tired of...

- ✓ Getting up to go at night?
- ✓ Daytime frequency?
- ✓ Weak flow and not fully emptying?
- ✓ Losing your spark in the bedroom?

See for yourself what P500X can do to get you **living your way again.** >>

No Matter Who You Are, P500X Is Your Perfect Choice For Prostate Support

Which One of These Sounds Like You?

"I want to enjoy the freedom of a healthy prostate, but haven't tried supplements before."

P500X is the *perfect* place to start. You can skip the hassle of trying product after product knowing that you have all of the best, most in-demand ingredients at your fingertips.

"I've tried other prostate supplements, but never Rye Flower Pollen Extract."

We've talked about the incredible purity, quality, and study results that make Graminex® G63® an all-star for prostate support. When you make the switch, you'll join thousands of men who have felt the difference firsthand and never looked back.

"I have tried rye, but it left me wanting more."

You've never tried rye like this. It's simply a fact that no other Rye Extract is made the way Graminex® G63® is, and that quality shows in every capsule. Plus, P500X is the only supplement that gives you a full 500mg of this astounding ingredient.

Get the Most. Get the Best. Get P500X. ➤

Unconditional One Year Money Back Guarantee

If you're not 100% satisfied — for ANY reason — we'll fully refund your entire purchase price when you return your unused portion anytime within 1-Year. No questions asked!
